WARRANTY GUIDE

2024

Get Covered

Welcome to the 2024 Guide. We have brought together all the warranty information you might need to make a decision when buying your next car. This is important because what sort of protection you have is the difference between a good and a bad ownership experience. On the whole car manufacturers give you excellent coverage and are eager to sort out any issues on their brand new models. Extended warranties for older cars can also be impressively comprehensive. Many thanks to the car makers who took the time to explain the complexities of their warranties. We have tried to highlight what you, the consumer, need to know. If not get in touch and we will get answers for you. Read the Terms & Conditions page to find out what the warranties mean.

Ts & Cs

www.carmanufacturer.co.uk

Number of Years Warranty

What is covered by the Manufacturer Warranty (MW) and the Extended Warranty (EW) if any?

What is the length of the Manufacturer Warranty?

Duration in years/months

What is the length of the Extended Warranty?

Duration in years/months

What is the cost of the Extended Warranty?

Are there different levels of cover for the Extended Warranty? If any

Wear and Tear?

Once the Manufacturer warranty runs out it can become less clear whether a part has failed because of a manufacturing fault or simply through hard use. If the warranty company expressly says they cover 'wear and tear' then there is a better chance of getting paid on a claim.

Is consequential damage covered?

Failures Found when MOT'd?

If a car is deemed unroadworthy and won't pass the MOT, some companies refuse to pay the claim because the part has not failed.

Failures Found when Serviced?

If a car is found to have a problem some manufacturers/companies may refuse to pay the claim because the part has not failed.

What Benefits does the Warranty confer on the Customer Breakdown Recovery

Manufacturers/companies will cover the costs, or pay money towards the recovery costs.

Car Hire

Manufacturers/Companies will cover the cost of getting the driver and passenger home, or will pay for this to happen up to a stated limit.

Emergency Travel

Manufacturers/Companies will cover the cost of getting the driver and passenger home, or will pay for this to happen up to a stated limit.

Overnight Accommodation

Manufacturers/Companies will cover the cost of getting the driver and passenger home, or will pay for this to happen up to a stated limit.

What does the Small Print Contain?

No Exclusion Period

Some manufacturer/companies refuse to pay on claims that are made in the first 30-90 days in order to prevent fraud.

No Excess Like car insurance, when you make a claim, some warranty policies ask for an excess payment to prevent fraud and can also make any annual premium cheaper.

What Parts and labour are covered? Some policies say they cover all parts, some expressly say what they cover, some say what they expressly don't cover.

Is there a claim amount limit?

Some policies will limit the amount you can claim or in total over a year. Many Manufacturers/Companies make that limit the value of the car.

Maximum Garage Labour Rate?

Garage labour rates are higher at main dealers than smaller garages and the main dealer rate usually applies for the manufacturer new and extended schemes. Outside of their protection of a manufacturer warranty, then using a main dealer garage to fix the car will require the labour rate maximum to cover that.

Is there are a Betterment Charge?

If an insured part fails then replacing it, and related parts, would make the car better than it was before the insured part failed, some companies charge a fee for this towards the elements that make the car 'better.'

Is the warranty for all listed parts or all parts other than those excluded?

To clarify what is stated in the Terms and Conditions

Is failure if caused by non insured parts covered?

If a part that the warranty says is not covered fails, and damages a part that is covered, warranties will only pay if they have agreed in their policy to cover damaged caused by non-insured parts.

Is Overheating Covered?

This may be excluded or not covered depending on the circumstances.

Is the Warranty Transferable?

When the car is sold, most companies make a small admin charge for transferring the policy with the car to its new owner.

Are these Parts Covered for Wear and Tear?

Here are some expensive parts, that are likely to fail and can be excluded.

Sat Nav System • Airbags • Alarm and Immobiliser

Entertainment System • Air Conditioning

ABS • Turbo • 4 Wheel Drive

DPF Diesel Particulate Filter • Deterioration of DPF

3 Years 60,000 Miles Warranty

What is the length of the Skoda Manufacturer Warranty?

(MW) Two year unlimited mileage warranty but also a third year of warranty up to 60,000 miles (terms and conditions apply), plus, a 12 year body protection warranty

What is the length of your Extended Warranty? (EW) Up to 5 years / 100,000 miles (whichever is sooner) cover for manufacturing defects.

What is the cost of your Extended Warranty? You can buy a Škoda Extended Warranty from as little as £131 per year.

*Based on a customer driving a ŠKODA with less than 60,000 miles and an engine size of 1.4L or below, choosing Named Component cover with an excess of £250, to cover them for driving less than 10,000 miles, within 30 days of their existing warranty expiring.

Are there different levels of cover for the Extended Warranty? **All Component Cover** is the most comprehensive level of cover, paying for the cost of repairing or replacing the factory-fitted mechanical and electrical components of your vehicle should they fail suddenly and unexpectedly during the cover period. **Named Component Cover** pays for the cost of repairing or replacing named factory-fitted mechanical and electrical components of your vehicle that are named in the Cover Booklet, should they fail suddenly and unexpectedly during the cover period.
